Please note:
1) Plans are subject to survey and will change
2) Some postcodes may only have partial coverage.
3) Some postcodes may be addressed in more than one phase, spreading across 2015 to 2018.
4) Some premises covered by fibre-delivered services will not obtain super-fast speeds.

This data relates to existing and expected commercial coverage of super-fast broadband up to 2016.

The information on commercial coverage was collated through an open market review and public consultation undertaken in 2014.

Superfast Broadband South Yorkshire Coverage by Postcode
- 2015
- 2016
- 2017
- 2018

Existing and expected commercial coverage
Under Review

Areas "under review" are of importance to SFSY and we are keen to find suitable solutions. These areas are under review for either one or more of the reasons below:
1) There is currently no technical solution
2) Currently the cost is prohibitively high to meet value for money
3) Funding is not yet available

Scale: Not to Scale
